

ABSENCECARE JULY 2010 SCORECARD

AbsenceCare uses an Absence Scorecard to monitor the absence performance across its portfolio of clients. The Scorecard tracks key indicators and quantifies the savings that clients have achieved by working with AbsenceCare to implement such initiatives as:

- Streamlining absence registration and administration processes
- Automating absence tracking and management reports
- Establishing early medical intervention in long-term illness cases

If you would like to discuss how AbsenceCare can help your organisation reduce costs whilst maintaining or even increasing productivity, please contact Absencecare on:
